LinkedIn URL: <https://www.linkedin.com/in/tommie-tong-89a4a7211>

Full-Stack Web Developer with hands-on experience building end-to-end web applications, designing relational databases, and architecting modern front-end and back-end features. Skilled in Next.js and API integrations, with a focus on delivering secure, performance-optimized, and user-centric web solutions.

PROJECTS

Interpria

Link: <https://www.interpria.com/tour/tommietong-at-sha-tin-che-kung-temple>

Architected and deployed a full-stack tour guide booking platform utilizing Next.js for server-side rendering, fast load speeds, and improved SEO performance. Integrated Stripe API as a third-party payment gateway to enable secure, real-time online checkout and transaction processing.

Toronto Attractions

Link: <https://springgreen-trout-818076.hostingersite.com/>

This is a PHP admin dashboard that lets users manage Toronto's points of interest. It uses Bootstrap for a mobile-friendly layout, enforces role-based access, and pulls live data from a MySQL database.

Pet Artworks Platform

Link: https://github.com/TommieTKY/pet_artworks_platform

It is a .NET 8 web application that stores data in SQL Server via Entity Framework Core, secures users with ASP.NET Core Identity, sanitizes input with Ganss.XSS, and displays images in a Lightbox.
